DR ROSERS' LIVERWORTH AND TAR FOR THE COMPLETE CORE OF Cought, Colds, Influence, Asthum, Beauchitia, spitting of Blood, and all other Lang Complexists tending to CONSUMPTION. THE GRNAT COUGH RZMEDY!

READER! have you a Cough, which you are neglecting,
under the lides that it is only a common cold, that it

In a short time, if you continue to negicet yearself, you will begin to feel a sense of tightness and oppression across the chest, accompanied with trequent sharp darting pains. Then a dry, backing though will set in, and when you raise anything it will be a thick and yellowish, or white frothy matter, streaked, periags, with blood. If you still take no medicine, these uncleasant symptoms will ingresse and you medicine, these unpleasant comptoms will increase, and you will seen have Hectic Fever, Cold Chills, Night Sweats, Copious Expectoration, and then Great Prestration. If you still neglect yourself, a few weeks or moutles will see you consign Friend! have you no cause to us alarmed? In the above sketch you may see as in a glass, how every case of Consumption progresses, with more or less rapidity, to a fatal termination. Of all the Thousands and Millions when this great Destroyer has gathered to the tomb, every single case began with a Cold! If this had been attended to, all might have been well but, being neglected, under the futal delusion that it would "wear itself," it transferred its dendly action that it would "wear itself," if trensferred its deadly action to the substance of the Langs, exciting there the formation of tubercles. Another, and abother cold added fuel to the flane, until these tubercles began to soften and suppurate eaving, by their ulceration, great cavities in the Langs. At his crists, the disease is very difficult of care, and offentime sets at defiance all human means.

In the latter or worst Slage, this medicine will offentimes arrest the disease, or check its progress, and will always make the patient more comfortable, and prolong his life, and is therefore worthy of a trial;—but in its incipient or forming periods. Consumption is as carable as any other disease, and

is therefore worthy of a trial;—but in its incipient or forming periods, Consumption is as corrable as any other disease, and "Dr. Rogers' Syrup of Layerworth, Tar, and Canchalagua," if taken at this time, will corre it [2]" AS SURELY AS IT IS TAKEN! [2]" This is strong language, but "to can refer you to numberless living witnesses to prove that it is TRUE. And therefore, we carnessly exhort every man, woman and child, who has a Cough, or is subject to Colds, to keep medicine by you in the house; and whenever you take Cold, do not "let it alone" to work mischief in your system, but eradicate it thoroughly, at since, by this power, fully healing compound and leave your Langs uninjured, to carry you in full vigor to a good old age!

MOTHERS!

Have you deliesta, weakly children, who are always taking cold, and subject to Crong? Remember! There never was case of Croup, which did not originate in a Cold! And when your child goes to bed wheezing and coughing, you know not that, before morning, Croup may not set on, and ere you can get a Physician, your dear child may be beyond the reach of help. We beseech you therefore, as you value the lives of your children, keep this medicine by you in the house, and when your little ones take cold and commence concluing, rive it to them at once and rest not until the cough coughing, give it to them at once, and rest not until the cough is entirely subdued. IMPORTANT IMPROVEMENT IN DESTRICT. D. R. ROSS would respectfully invite the attention of the public to a NEW AND TEXT TEXTS, upon which he has been for some time practicing with great success.

The improvement consists in the teeth being arranged upon which of more children and the teeth being arranged upon which of more children in mind. The improvement consists in the feell being arranged upon a plate of pars plating m, and by means of a allicious
compound the tests and plate are comented firmly together, leaving no interstices for the hidgment or secretion o
food, at the same time forming an artificial guma beautiful
and life-like in appearance, and which is represented on the
inside of the tests as well as out.

Those interested are invited to call and examine spec i
mens of this improved method at his operating recens, No
